ACTION OF MILK-PRODUCERS.

NAMING THE PRICE AT WHICH THEY WILL SELL TO DEALERS-4012 CENTS FOR THE YEAR.

Dealers—40½ cents for the Year.

Delegates from the various associations of milk-producers or dairy farmers which supply milk to the city met yesterday in the Cosmopolitan Hotel to fix the price for each mouth of the year, beginning next April, at which they will sell pure milk to the city milk dealers. There were present Wilham P. Richardson, Thomas J. Taylor, J. E. Wells and Dr. Richardson, Thomas J. Taylor, J. E. Wells and Dr. Richardson, Thomas J. Taylor, J. E. Wells and Dr. Richardson, Thomas J. Taylor, J. E. Wells and Dr. R. A. Pooler, of the Farmers Milk Company thmited), of Orange County; R. C. Youngs, of Liberty, Sull van County; Alfred Shaw and Mr. Crawford, of Delaware County; John Looms and James F. Martin, of the New-Jersey Midlami Railread Association; Theodore Youngs, of Sassex County; J. E. Hart, of the Housatonic district; John T. Leaby, of the New-Jersey Central Association; and Senator Pideock, of Hanterdon County, N. J. After a conference a committee was appointed to confer with the directors of the New-York Milk Exchange (limited), an association of creamery proprietors and milk dealers, which is antagonistic to the organization of the namers, to see if a friendly settlement of prices for the coming year could be arrived at. The directors of the Milk Exchange, Messrs, Beakes, Smith, Woodhull and others, refused to confersaving they preferred to set the price they would give at the end of each month. They argued that the farmers would buy more cows and flood the market if praces were set for the year in advance. To this the farmers replied that they would contract to keep all surplus milk in the country and use it there, sending only what the milk dealers wanted.

As the dealers would not confer, and apparently

tract to keep all surplus milk in the country and use it there, sending only what the milk dealers wanted.

As the dealers would not confer, and apparently wished to get the power of fixing prices all in their own hands, as it was before the milk war last year the farmers reassembled and fixed a schedule of prices which all those present pledged their constituencies to demand; and they agreed to sell no milk for less, but use up the surplus in batter, cheese or in other ways. Mr. Richardson said that the farmers had made \$100,000 by the difference in price caused by their organization since October 1, besides saving 4,500 milk cans worth \$18,000. They had saved more than that, because if they had not organized the dealers would have set prices still lower. Before the farmers organized, and put inspectors on the trains last February, the milkmen sold every day 80,000 quarts of skinsmed milk and 100,000 quarts of water in a total of 500,000 quarts daily consumption in this city. They received more money for the skins unlk and water than they paid farmers for their pure product. Out of 1,100 cases of adulteration the health inspectors found only three implicating farmers.

After considerable discussion the aggregate price to dealers for the year was fixed at 4042 cents, though the majority wished to put thigher. Last year it was 40 cents. The price for each month is as follows: April, 34, May 242, June 242, July 3, August 3, September 344, October 342, November 442, December 4, January 4, February 342, March 342.

STATE OF THE REFORMED CHURCHES. STATE OF THE REFORMED CHURCHES.

"I appeal to the Classis of New-York," said the Rev. E. Fairchild at an adjourned session in the Collegiate Reformed Church, Fifth-ave, and Twenty-ninth-st., yesterday; "in behalf of my congregation of the Union Church on Sixth-ave, It is composed of what remains of the old Reformed churches of this part of the city, It has the present representation of the old Knickerbocker faith of any church in New-York. Our people have denied themselves for their church, but it has had no direct help from the Classis, and, as your committee have reported, we are in need of assistance. We are situated where a congregation can be made strong." Ong." The Collegiate Church has urgent need of a new

"The Collegiate Church has urgent need of a new church," said the Rev. Dr. Chambers, "but in our present condition, it is thought a sin to make use of the money appropriated for that purpose. It will be a greater sin to give the money for any other purpose. We should consider what is the present and future status of the Ninth Ward; whether it is soon o be overrun by a foreign pountation and the held fitted only for mission work."

The Rev. Mr. Fairchild—"I can show that the Ninth Ward is the best adapted in the city for church work. The Union Church is the only Reformed church between Fourteenth-st, and the Battery, in a population of nearly 550,000. The Ninth Ward is the most thoroughly American ward in New-York: 39,000 of its population are American and less than 16,000 foreign. In a total population of 55,000, only 600 cannot read or write; 3,500 live in their own houses, and nearly 1,500 are landowners."

The Classis, after discussion, referred this subject to a committee to examine further and report at the regular meeting on Tuesday, April 15. The matter of organizing a church on Eighty-fifth-st, was tabled. A committee reported that several churches had overlooked the collections for the Home Missionary, Widows and Educational funds, and that the Madison Avenue Church had overlooked everything. Resolutions were passed that churches should at all times be organized in the city rather than missions, and that measures should be taken to increase the efficiency of the Church Extension Committee. That committee advised the sale of the property of the church at Richmond, Staten Island, and the payment of its debts, amounting to \$3,500. After a prayer, the Rev. Dr. Vermilye, president of the Classis, declared the meeting adjourned. Whers.

STEALING LEAF TOBACCO.

STEALING LEAF TOBACCO.

H. Harris, dealer in leaf tobacco at No. 126 East Fourth-st., informed the police ten days ago that quantities of tobacco were disappearing from his store. His clerk, Charles Karo, was discovered by Detective-Sergeants Dolan and Heidelberg to be giving away tobacco to William Komer, a cigarmaker at No. 200 East Eighty-sixth-st. At Sa. m. vesterday the officers arrested Romer and his wife Matida, when they were about to leave Mr. Harris's store with leaf tobacco worth \$50 in their possession. Karo was arrested also. He admitted that he had given tobacco worth about \$250 to Romer since last November. He said he had received less that \$50 for his part of the stealing.

ganist has culminated in Mr. Carter's resignation, ganist has culminated in Mr. Carter's resignation, to go into effect on May 1. The resignation was presented to the Music Committee yesterday and accepted. The election of Messrs. Brown and Stanwood as members of the Music Committee on last Friday was supposed by Mr. Carter to mean that his management of the choir would be sustained, as Mr. Beecher was favorably inclined to him. But the Music Committee met at Mr. Beecher's house on Saturday, and decided that, in view of the dissatisfaction with the music, an entire change would be best. It is understood that the money available for music next year will be more than \$3.000, which was the sum haid thus year, as some of the members of the church have expressed a willingness to subscribe to a large fund for the purpose. When Henry Camp was leader of the choir about \$6,000 a year was spent.

PRESIDENT WALKER ANSWERS THE MAYOR'S STATE-MENTS.

Thirteen trustees of the College of the City of New-York met yesterday, twelve of them voting to re-elect Stephen A. Walker chairman of the Board. Lawrence D. Kiernan was re-elected secretary. Of the \$135,000 appropriated for the college, \$105,000 was set apart for salaries, and \$50,000 for current expenses. President Webb reported that thirty-eight students in the senior and junior classes had stated their desire to hear lectures on pedagogics, and had pledged themselves to attend them.

must be found at the top for those crowded out at the bettom. The first and only duty of the State is primary editection.

To ere is not a college graduate in Sing-Sing to-day. If the artunent that common school editection is preventive of crime and poverty is a good one, will some one tell me why a college education is not a better I believe promotion should be not the reward of themsery merely but of capacity. This point fairly may be said to be nearly, if not quite, at the close of our granular school course. The criterism of our system that only a few share the benefit of the higher branches of instruction, I would repel by saying that there are fair too many doing it. The fifty students who should graduate from the Normal College, the twenty-five from the City College, would be competent for their responsibilities as teacurers in the schools or for work of any sort requiring natural capacity and intellectual training. Plundly, let me add my ophilon that our colleges will both be intried into warcheness or hospitals the moment their general administration fals to commend itself to the good scusse of the whole community. The theory of their office in the school system may be entirely correct, but if their maintenance savors of pretence, charintanism, or extravagance; if their graduates are more remarkable for numbers than for qualities; if the salaries we pay are in excess of what equal talents command elsewhere or in other vocations, it will not be long before some referal changes will be insisted on, which may induce the symmetry and self-supporting character or the whole system, and cadanger its existence.

THE ASSISTANT EISHOP TO MR. NEWTON.

THE ASSISTANT BISHOP TO MR. NEWTON. The following is the text of the letter which Assistant Bishop Potter sent to the Rev. R. Heter Newton, requesting him to discontinue his Bibble lectures, which have been the occasion of so much comment among Episcopal dergymen:

New-York, Jan. 10, 1881.

My Dran Dr. Newton: In our brief interview the other day, you gave me an assurance which sais, I are sure, as sincere on your part as it was unsaffected on mine. May I venture to recall it to you? You know, as well as I, that in the matter of your course of Sinday afternoon serimons have no power to shence you by any act or injunction which is merely my own; and you know, also, how thoroughly personated I am that you are amounted in all that you have said and done in your ministry by a sincere desire to serve, and help, your fellow men.

I will outy add that if you need a reason to give your people for doing so, you are at perfect liberty to say that I have made it.

And I am, dear Dr. Newton, your friend and brother, H. C. Petriss.

And I am, dear Dr. Newton, your friend and brother,
H. C. Petter.

"The reason why I did not read Bishop Potter's
letter from the pulpit last Sunday, "said Mr. Newton
yesterday, "was that I did not understand that it
was intended for publication. On January 7 I met
Assistant Bishop Potter accidentally, and in the
course of a friendly conversation I told him that
I feared that my talks might revive the painful
discussions of last spring and that I was desirous
of avoiding anything that would give him annoyance. I added that if under the circumstances he
saw fit to ask me to stop, I would do so. This conversation took place prior to any attack which was
made upon me, and it was to this friendly chat that
he alludes in his letter, which was sent to me the
following Thursday."

THE PAYMENT OF TAXES IN ELIZABETH.

Notices were served on delinquent taxpayers in Elizabeth on Monday that, unless prompt payment is made, property will be seized and sold to satisfy the tax assessment and costs in each case. This includes a host of renters, whose personal property has been assidnously insted year after year by the assessors, without any effort being heretefore made to coolect it. There have been several meetings of property in the tax but under protest and with threats of a general exodus in the spring.

"My aunt is fairly well, considering the terrible week of anxiety she has just passed through. The funeral was to have taken place in St. Patrick's Cathedral, but the arrangements have since been altered, and it will be held in St. Leo's Church, Father Dney efficiating. The body, however, will be placed in the family vault at the Cathedral. Until after the funeral I can say nothing whatever on the subject of my nucles disposition of his property."

Delegations from the Union Universelle de l'Art Cullimare and the Société Culimaire Philanthropique will attend the funeral, which is to take place to-morrow morning, and several hundred members are expected to be present. All four restaurants were open yesterlay, but will probably be closed on the morning of the funeral, which the employes will attend in a body.

John Hoey said yesterday: "I cannot help expressing myself as relieved, now that the worst is known. That week of suspense was awful, I did not know what a sound night's sleep was. My task is ended, and all the arrangements are now in the hands of the family. My only reason for taking the part I did in the scarch was that Charles Delumonico was an old and valued friend of mine."

Mr. Hoey was asked his opinion as to when death ended the wanderer's sufferings, He stated that he thought it was most probably on Saturday night. This was also the opinion of the members of the family was also the opinion of the members of the family.

When John Harvey, who had pleaded guilty to a charge of burglary, was taken before Judge Cowing yesterday for sentence, his counsel asked that he be sent to the Elmira Reformatory, as the prisoner said that it was his first offence. Judge Cowing called for the police officers who made the arrest, who said that Harvey had served one or two terms in the Penttentiary. Judge Cowing became indignant and said that he had been charged with sending murderers to the Reformatory, as one of those sentenced by him had killed a keeper, He could only send there those who had not previously been convicted, and he was not disposed to telerate any misrepresentations on the part of prisoners. He

remanded Harvey to await evidence as to whether he had been previously imprisoned.

The Studies Committee of the Board of Educa-

creased \$180 a year.

The Studies Committee of the Board of Education reported yesterday that, comparing the schools of Brooklyn with those of Boston, the figures made a better showing for the former than the latter, contrary to what the Mayor had said, and where the Mayor said that there were only 212 graduates out of \$73 nopils in the highest grade in t elve schools, the figures should be 212 graduates out of 384, as the graduating classes included only the first section of the highest grade. Other facts were given in the report controverting the statements of the Mayor in his message. The committee recommended the establishment of one or more training schools for teachers.
